

Blue/Gray piece is
detailed in 5HM
Standard.pdf

Separate black piece
(clip) is used to hold
open clamp.

2nd piece (clip) is removed by customer once clamp is placed on hose.

Each clamp is supplied assembled with clip. One clip per each size.

No drawing supplied for clip. We can develop own clip. Clip should be constructed of low carbon steel, and very cheap type of rust proofing.

Critical dimension on clip is spacing.
